Communism Strongly Denounced by Peter Collins at Blairmore

People from Pass Towns Enjoyed
Hearing Instructive and Inspiring
Address.

Peter W. Collins of Boston, Mass., in a lecture at Blairmore on Saturday evening under the auspices of the Knights of Columbus, strongly denounced Communism, which he stated would upset man's faith in God and even deny the existence of the Supreme Being.

For nearly an hour he spoke on the subject of Christianity, Civilization and Progress, which proved very interesting. Labor and Capital, he stated, must be trustful of each other, and the worker must have a living wage in order to live happily.

The chair was occupied by P. M. Christopher, M.L.A. and the speaker was introduced by J. E. Gillis, Chancellor of the Blairmore Chapter of the Knights of Columbus. The proceedings opened with the singing of "O Canada," led by Mrs. L. L. Morgan, and closed with the national anthem.

Despite it being Saturday evening there was a fair-sized audience, and many from Coleman were present.

All were well pleased with the address. Mr. Collins is making a tour of Western Canada under the auspices of the Knights of Columbus and has addressed audiences in most of the larger centres of the western provinces.

**Hockey Enthusiasts Are
Getting Into Action**

Delegates Appointed to Interview
Risk Manager and Elks Lodge
on Wednesday Last.

A meeting of supporters of hockey was called in the council chamber on Wednesday, October 17th, to discuss ways and means for organizing this season.

Chairman, Mayor Burns; secretary, H. T. Halliwell, nominated for the meeting.

Present: F. G. Graham, W. Bell, Bob Jenkins, J. Kwasney, V. Liliya, A. Colgrass, O. Kabin, M. Korman, Angelo Gentile, R. Shone, M. Brennan, M. Stevulak, Wm. Lees and Wm. Fraser.

The list of players given at the meeting as being eligible were: W. Gates, Oscar Kabin, Jim Fraser, H. Huffman, V. Colgrass, M. Stevulak, C. Mally, E. Mallo, two McQueen boys.

Following discussion it was decided to appoint W. Burns and F. G. Graham as delegates to interview the risk committee to find what arrangements could be made for practices and playing this winter, and also to take up with the Elks the sponsoring of the club for the season, to report at a meeting open to the public to be held on Tuesday evening.

Following the meeting of delegates from the hockey meeting and representatives of the risk company, the following terms were offered by the company:

Receipts from hockey games to be divided 65 per cent to the hockey club and 35 per cent to the risk company.

Hockey practices to be allowed free for two nights a week and if required on Sunday the club may enter into any arrangement with caretaker that will be satisfactory to him.

Hockey players to buy season tickets for skating at the reduced price of \$3.50. This reduced rate to be restricted to a maximum of twelve players only and names will have to be submitted to the ticket seller by the club.

These terms are only on condition that the club is entered in a league and will guarantee the rink at least six home games.

THE PASS FIFTEEN YEARS AGO

(The Blairmore Enterprise, 1913)
The twelfth annual session of the International Geological Congress was held at the Rocky Mountain Sanatorium hotel at Frank on Monday. Twenty-one nationalities were represented in the gathering, including delegates from Austria, Belgium, Chili, Denmark, Egypt, Finland, Germany, France, Great Britain, India, Italy, Japan, Manchuria, Netherlands, Newfoundland, Russia, South Africa, Sweden, United States and Canada. The Northwest Institute was ably represented by Mr. J. L. Parker. One hundred and thirty persons sat at a banquet in the evening, which was a most elaborate affair.

Badminton Club Notice
The committee are making all necessary arrangements and play should be started at an early date. Those who have not purchased rackets should do so as soon as possible. Prices and terms may be obtained from Dr. McLeod.

BELLEVEU APPRECIATED THE CONCERT BY COLEMAN ORCHESTRA

Coleman Orchestra Association gave a very fine concert last Thursday evening in Cole's theatre, Bellevue, assisting the Hillier, concert party who put on the evening's program. They were accorded an enthusiastic reception, every number being enjoyed.

Following the concert the party were entertained at the home of Mr. and Mrs. Chas. Emmerson, which was appreciated by the orchestra and added greatly to the pleasure of the evening.

Mining Men Make Presentation to John Crawford

Join in Good Wishes on His Appointment as Manager at Saunders Ridge Mine at Mercoal.

A presentation of a dressing case with his new fittings was made to Mine Manager John Crawford by the officials of McGillivray Creek Coal & Coke Co. Ltd. on Saturday evening at the Empire hotel, Sandy Dwyer making the presentation on behalf of those assembled.

It is only eight months since Mr. Crawford came to Coleman and during that time he has taken an active part in the life of the town, especially in musical circles, and the presentation on Saturday was an expression of good-will from his associates at the McGillivray mine.

He left here on Monday to take over his duties as general manager of the Saunders Ridge Collieries at Mercoal, in succession to A. D. Miller, recently appointed chief mines inspector of the province.

Mrs. Crawford and son are at present visiting in Scotland, having left there in September. The good wishes of many friends and acquaintances follow Mr. Crawford to his new appointment.

NIGHT CLASSES IN COLEMAN

Classes in English for new Canadian and for certificates for miners and engineers, fire bosses and bosses, will be held in Coleman by the courtesy of Coleman school board in conjunction with the Technical Institute of Calgary, states Mr. Andrew Baxter, who was here last week from the city completing arrangements for holding the classes.

ELKS WILL HOLD SERIES OF WHIST DRIVES

The Elks lodge will hold a series of eight whist drives commencing on Friday, Oct. 26, in the R. F. hall. The admission per person is 50c each night, and the evenings are open to Elks and their friends. There will be ladies' and gentlemen's prizes given each evening, and grand prizes at the conclusion of the season. The hour is 8 o'clock sharp.

HOSPITAL REPORT

During September there were 226 hospital days. At beginning of the month six patients; admitted during month 38; discharged during month 32; in hospital at end of month, six. The total of patients treated during the month was 44.

There were nine major operations and ten minor operations.

Doreen McCulloch is a patient for medical treatment.

Mrs. Simister of Blairmore was operated on Friday and returned to her home.

Mr. Dorsuch was operated on Saturday.

Acknowledgement of gifts and supplies from the following: G. Pattinson, Mrs. Wm. Fraser, the Women's Institute.

LETHBRIDGE HERALD ROAD RACE

The Herald annual road race (senior and junior) will be run at Lethbridge on Thanksgiving Day, Nov. 12, and the committee is desirous of having as many entries as possible. Entry blanks and conditions of races may be obtained at The Journal office.

SPECIAL RATES FOR RE-UNION OF FAMILIES

British subjects resident in Canada, who are not employed in farm work, have now an opportunity to bring out their wives and families at special Canadian rates, viz. \$125 per adult to destination. The total rate for adult under this plan from Great Britain to Coleman would be \$250.

Children under 17 years of age are free. Further particulars may be obtained from H. T. Halliwell at the Journal office.

Palace Theatre Program

The coming week's program is one of sensational music and Mr. Wallace Beery in "Beggars of Life" is the feature for the week-end.

LADIES: To obtain a pair of high grade Woods Lavender Linen, read the advt. of F. Antroub's Shoe Store.

CONCERT AT BLAIRMORE

Coleman Orchestra Association will hold a concert at Blairmore on Sunday evening at the Orpheum theatre at 8:30. Mr. Edgar, the well-known Welsh tenor, is on the program, and it promises to be an exceptionally fine concert.

The J.W.A. of St. Alban's sale of work and tea will be held on Saturday, Nov. 18, from 2 till 6 p.m.

RETURNED FROM ENGLAND

Harold Stephenson and William Machin, who left Coleman on July 13 for a visit to their old homes in England, returned on Wednesday last, and report having spent a very pleasant holiday. Both are as fit as ant hills, and had a very pleasant passage both ways.

Palace Theatre

In Addition to Fox Weekly News and Comedy on
Fri. and Sat., October 26-27
a 10 reel feature picture will be shown, entitled

"BEGGARS OF LIFE"

Starring WALLACE BEERY

Mon., Oct. 29—Richard Dix in "WARMING UP"

Other features for coming week:

"STARK LOVE" and

Charlie Murray in "THE HEAD MAN"

Special Orchestra for Week-End

Matinee Saturday at 2 p.m.

Extension of Time For Rebate

On School Taxes

The time limit for the rebate of 10 per cent. on School Taxes for the current year has been extended to

Wednesday, October 31, 1928

the closing hour being 4 p.m. on that date.

In order to take advantage, this is positively the final date for the allowance of the rebate.

PAY NOW AND SAVE 10 PER CENT.

The Grading of Wheat

The heavy frosts which descended upon Western Canada during the third week of August, had a most disastrous effect upon a large portion of the wheat crop of the prairie provinces, with a resultant lowering in grades which, in the aggregate, means a loss of many millions of dollars to the farmer-producers of the west. Just how great the loss will probably never be accurately known, but thousands of individual farmers will, more or less correctly, estimate what it means to them. Volume of production remains, the greatest in the history of the country, but grades, and consequently prices, are seriously affected.

Under the circumstances it is but natural that an outcry is raised against the whole system of grading, and some very rash statements are indulged in. The farmer who gets Number Three feels he ought to have received Number Two, and the man who is given Number Four contends he ought to have had Number Three, and so on down the line. This is but natural, but the result is that elevator operators, whether in the Pool or line elevators, are being taken advantage of the situation and grading too low. Governments, both federal and provincial, are held responsible for the system of grading in vogue, although, as a matter of fact, provincial governments have nothing to do with grading, which, as a matter of trade and commerce falls solely within the jurisdiction of the Dominion. If there was any truth in the charge that the Liberal Government, in Saskatchewan, is responsible for low grading this year, then the Farmer Governments in Manitoba and Alberta are equally responsible.

The truth of the matter is, of course, that neither Liberal, Conservative, Progressive nor United Farmer Governments are responsible. It may be that the present system of grading requires revision but even that cannot be determined offhand. Canadian wheat occupies an enviable reputation in the markets of the world, because of that reputation commands a good price. That reputation is based on the quality of our wheat, and that quality is guaranteed through our system of uniform Government inspection and grading.

It may well be that in a year like the present, a relaxation in grading would result in a larger proportion of our wheat being placed in higher grades, and better prices received by the grower. On the other hand, a lowering in the standards might very easily result in a general lowering of all prices, so that the final result would be much the same.

But assuming that this did not happen this year, the undoubted effect would be injurious to the reputation of Canadian wheat and any gain derived this year would be more than offset in other years because of the poorer reputation for all our wheat that would result. The reputation of Canadian wheat abroad is the biggest asset we have in the British and European markets, and it must be retained at all hazards. And to tamper with grading solely in order to meet climatic conditions in any one year would be fatal to that reputation.

There is this, however, to be considered. Does frost, which mars the appearance of the wheat kernels, and results in lower grading, actually impair the milling qualities of that wheat, and the baking properties of the flour made from such wheat? In other words, does frost affect the real quality of the wheat to the extent that our present standards of grading would indicate? If it does not, then it would seem that our grading need not be quite so drastic without affecting the established reputation of our wheat.

This, however, is a question that can only be determined through study, research and experimentation. It cannot be decided in a day or two, or settled by legislative enactment. The Dominion Government is fully alive to the importance of this question, and the Government Research Laboratories, working in conjunction and full co-operation with all Western universities, is engaged in the task of ascertaining the actual facts and the full truth. In this important work the three provincial governments, the Wheat Pools, and the United Farmer organizations are all assisting.

Pending the result of such searching investigations, it is a mistake and unpractical for anybody to seek to induce public opinion out of an unfortunate condition resulting from the vagaries of the weather which no man, or body of men, can direct or control. Rather should every man and every organization having the best interests of Canada at heart do what lies in their power to assist in this great work to the end that all may benefit.

Want Tariff On Berries

B.C. Fruit Growers Want Seasonal Tariff On Imports From U.S.

A request for a reasonable tariff from May 15 until July 31, yearly, to apply on importations of United States strawberries to prairie points in advance of the arrival of British Columbia fruit was made by a delegation of Spanish fruit growers in representations made to Hon. W. D. Fuler, minister of national revenue, and Hon. Dr. J. H. King, minister of health, in a conference at Victoria.

Mrs. L. Shepherd Tells How Cuticura Healed Her Son

"My boy five years old had scabies on his thumbs. It broke out in a red rash and soon spread to his hands and arms. It festered terribly and he would scratch until his hands would bleed. He could not stand his clothing, to touch his arms, and some nights he could not sleep on account of the irritation. The trouble lasted eight weeks. I began using Cuticura Soap and Ointment and they relieved the irritation. I continued the treatment and after using one cake of Cuticura Soap and one box of Cuticura Ointment he was healed." (Signed) Mrs. Lorne Shepherd, Wilkesboro, Ont., Oct. 7, 1927.

Clear the pores of impurities by daily use of Cuticura Soap, with touches of Cuticura Ointment as needed to soothe and heal. Cuticura Talcum is fragrant and refreshing, an ideal toilet powder.

Sample Leaflet Free by Mail. Address: Cuticura Sales Dept., "The Great Toiletries," P.O. Box 102, Hutchinson, Mo. Or, Cuticura Sales Dept., 250 West 12th St., Minneapolis, Minn.

Nansen Believes Arctic Route Most Favorable

Explorer Planning Zeppelin Flight Between Europe and United States

A Zeppelin flight between Europe and the U.S. by way of the Arctic regions in order to determine the practicability of that route is now being actively prepared by a committee under the chairmanship of Fridtjof Nansen, noted polar explorer. It is believed that weather conditions will be more favorable in the Arctic than over the regular North Atlantic course.

The Zeppelin will be commanded by Captain Walter Bruns, secretary of the Society of Arctic Research. It is understood that the coming aeronautical convention in Berlin will fix the date for the Arctic flight, which probably will be next May or June.

Three Russian scientists, Prof. Wiese, meteorologist; Prof. Schmidt, biologist and Prof. Isachenko, microbiologist were in Nansen's party recently en route to Berlin, and discussed plans for the expedition.

WEAK AND NERVOUS

A Condition Due To Watery Blood

—Easily Corrected Through the Use Of Dr. Williams' Pink Pills.

Thin, pale girls lack the power of resistance to disease that rich, red blood gives. Nervousness and indigestion are the result of thin blood. So is indigestion, headaches, backaches and many other troubles. Girls suffering from thin, impure blood need just the help Dr. Williams' Pink Pills can give. For many years Dr. Williams' Pink Pills have been a world-famous blood-builder and nerve restorer. They actually make new, rich, red blood which imparts new vigor and life to all the organs of the body. Their first effect is usually shown by an improved appetite; then the spirits revive and restlessness at night gives way to health restoring sleep. Dr. sufferers from anaemia, nervousness, general weakness or physical exhaustion Dr. Williams' Pink Pills are a restorative of the utmost value. This is proved by the experience of Miss Sarah A. McEachern, R.R. No. 3, Brule, N.S., who says:—"About three years ago I became very weak and nervous. I had pains in my side and back. I also had frequent pains in the back of my head. My blood was very pale and watery. I had attacks of nervous irritability, and at times I was so nervous I could hardly work or live. While in this condition a friend strongly advised me to take Dr. Williams' Pink Pills. I began taking these pills and used them for about two months with the result that my blood was improved in my condition. That friends would ask me what I was taking, and I was only too glad to tell them it was Dr. Williams' Pink Pills. I am now enjoying good health and am glad to give this statement for the benefit it may be to some other sufferer."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

End Season's Work

Freighters From Hudson Bay Return To Nova Scotia Ports

All freighters being used in Government work on Hudson Bay, have left for Nova Scotia ports for the winter months, according to wireless dispatches received at the Department of Marine. The big tug and the steamers Canadian Voyager and Odile, left Fort Churchill recently. The vessels have been used in carrying material to be used in the construction of the harbor.

Ready-made Medicine—"You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Electric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable; for scalds, burns, bruises, sprains it is unsurpassed; while for cuts, sores and the like it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness."

"What are you doing with that red lantern?" "Oh, I just found it. Some careless fellow left it beside a hole in the road."

Many mothers can testify to the virtue of Mother Graves' Worm Expeller, because they know from experience how useful it is.

When Noah sailed the world's blue He had his troubles, same as you. For forty days he drove the Ark Before he found a place to park.

Rheumatism

A little Minard's rubbed into parts affected relieves rheumatic pain. Also good for bruises and sprains.

MINARD'S
"KING OF PAIN"
LINIMENT

Proves Airship Practicable

Zeppelin's Flight Shows It Superior To "Plane For Ocean Crossing Says Expert

Captain Walter Bruns, noted aviation and Zeppelin expert, is of the opinion that the voyage of the Graf Zeppelin from Germany to the United States, has conclusively demonstrated the practicability of the airship for trans-ocean communication.

"Such a collection of bad weather as the Graf Zeppelin encountered," he said, "of course is not an everyday occurrence. In normal weather, the Zeppelin should span the ocean easily."

"From an expert viewpoint, it would be an interesting thing to have the worst weather imaginable for it proved that the airship can do what the aeroplane cannot possibly do, go a long distance out of the way of a storm; or, if caught in it, merely drift until it blows over. The Graf Zeppelin was delayed in its arrival longer than expected. But what of it? Why apply different standards to an airship than to an ocean vessel. The grey hulks recently have been from 25 to 36 hours late. Yet nobody has found fault with them."

"No airplane can afford to fly great distances to evade storms, because its fuel supply is too limited; also, it cannot have convenient refueling weather observations which the gondola of an airship affords."

Asked whether he thought Dr. Ecker had possibly yielded to pressure and started at an inadvisable time, Captain Bruns replied: "I don't think so; on the contrary, Dr. Ecker undoubtedly said to himself, 'If I can only get the Zeppelin out of the hangar, I can fly in any kind of weather.'"

A Remarkable Invention

Metaphone Emits Noise When Detector Comes Near Metal

Metals are made to talk by a new invention, called the "Metaphone," which is being perfected by its discoverer, Mr. W. S. Clayton. This remarkable new instrument, which resembles a wireless receiving set, can tell when objects of metal, of weather observations which the gondola of an airship affords."

The possible uses to which the "Metaphone" may be put, says the London Sun News, are almost innumerable. It can be used to detect sunken submarines, ships, and even treasure at the bottom of the sea, and with a small set it is possible to detect the presence of a knife, revolver, hand of keys or cigarette case in a person's pocket.

Although the invention is by no means fully developed, Mr. Clayton has already conducted some satisfactory experiments at sea off the coast of British Columbia. The instrument, carried on board a salvage steamer, detected the presence of some iron wreckage well below the surface of the water. Elicited responses or a loud speaker can be heard in connection with the invention.

An Oil Of Merit—"Dr. Thomas' Electric Oil is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a rare combination and it won an expert public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal."

Wonderful Future For Canada

Lord Peel Sees Great Things In Store For This Country

"We see developing here a vigorous and varied civilization and we see a people growing with a clearly marked individuality of their own," said Lord Peel, grandson of England's Robert Peel and leader of the Empire Parliamentary Party, just before his departure for the Maritime Provinces. "We have fallen in love with this country and regret to leave these fertile plains and the bright stimulating air. We all foresee a wonderful future, even beyond the visions of the first pioneers. We believe the country is moving along right lines and it is only a matter of time until the ambitions of the most far-seeing are accomplished."

Minard's Liniment for aching joints.

Lindberg Going To Turkey

Mrs. Evangeline Lindberg, according to a dispatch sent by the Constantinople correspondent of the Egyptian Daily newspaper Ahram has said that her famous son, Ott. Charles A. Lindberg, intends to visit her shortly in Turkey. The two will make an aerial journey to Syria and Jerusalem, to visit the holy places of Christianity.

Immigration for Canada from the United States this year is 26 per cent. greater than a year ago.

Freedom From Insect Pests

Loss From Insects Has Been Very Light In Western Provinces

General freedom from insect pests in the western provinces is reported by the Dominion entomological branch. Grasshoppers which in former years would havoc in the crops have been found scarce this year. The sugar beet crop in southern Alberta is now in three years from less than a thousand to almost fifteen thousand in number. Although strongly supported by women's organizations, more than half the members are business men—in British Columbia the male membership running to 85 per cent.

Health cannot be looked for in the child that is subject to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Powders ease worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness, all the discomforts and dangers of worm infection are removed, and satisfactory growth is assured.

Minard's Liniment—Popular for 50 years.

Ludendorff Is Worried

General Erich von Ludendorff, former quartermaster-general of the German army is reported to have appealed to President von Hindenburg for help against Free Mason lodge, which he claims have "passed a death sentence upon me and my revelations of their pernicious methods."

Senora Alice Cunha Machado was free on a writ of habeas corpus because the Supreme Court listened to her plea that her child did not deserve to be born in jail.

10 minutes ago—

How many people you know who end their colds with Aspirin! And how often you've heard of its prompt relief of sore throat or tonsillitis. No wonder millions take it for colds, neuritis, rheumatism; and the aches and pains that go with them. The wonder is that anyone still worries through a winter without these tablets! They relieve quickly, yet have no effect whatever on the heart. Friends have often told you Aspirin is marvelous; doctors have declared it harmless. Every druggist has it, with proven directions. Why not put it to the test?

Aspirin is a Trademark Registered in Canada

ASPIRIN

HAS PLAN TO AID PRODUCTIVITY OF WESTERN SOIL

Toronto.—The rehabilitation of the soil of the western provinces through the use of nitrate fertilizer developed by electricity, possibly in Manitoba, is envisaged by Prof. J. Watson Dain, head of the Chemical Engineering branch of the University of applied science, University of Toronto.

Addressing the Toronto Electric Club, Prof. Dain said that by passing the component parts of water and air through a simple chemical process, ammonium nitrate, the best and most concentrated fertilizer known, could be produced in unlimited quantities. By the fusion of rock phosphate and coke, a compound of phosphorus used in the fertilizing process would result.

"I believe," he said, "that before many years pass we will have to supply fertilizer to the west. They have been mining the soil in the production of wheat. In Germany, to show how important fertilizers are to Canada, it is not uncommon to produce forty bushels of wheat to the acre. Ontario's average production is twelve bushels."

Before many years, Prof. Dain believed, a great plant would be instituted in some of the northern rivers running into Hudson Bay, where electric power could be developed. Water would be taken from the river to obtain its hydrogen content and nitrogen would be removed from the air. "The two gases could be united to form the great basic element of plant food. He was of the opinion rock phosphate could be found in the same area and that coke could be freighted in to complete the manufacture of phosphorus in the huge electric furnaces which would derive their heating power from the harnessed waters of the river.

In both processes, Prof. Dain believed, electricity would be used for the heat necessary in breaking up the elements of the mediums used. "It will be a contribution of electric engineering," he said. "It is a field in which we can join hands to produce for the benefit of the country at large."

Arms Plea a Failure

German Communists Did Not Secure Enough Signatures To Petition

Berlin.—An attempt by Communists to hold a nation-wide plebiscite on a law proposed by them saying "it is forbidden to build a battle cruiser of any kind" has failed.

About 2,000,000 Germans signed the Communist petition for a plebiscite on the subject. The constitution prescribes that one-tenth of the qualified voters, or about 4,000,000 persons, must sign a demand for a referendum and therefore no plebiscite will be held.

G.P.R. Head Celebrates Birthday Montreal.—E. W. Beatty, president of the Canadian Pacific Railway, has celebrated his 51st birthday. Mr. Beatty was born in Thorold, Ont., on October 16, 1877. He entered the service of the company of which he is now chairman and president in 1901, as assistant to the general counsel. In 1914, he became vice-president, and in 1918, president, succeeding to the post made vacant by the death of Lord Shuggens.

Sentenced To Three Years Weyburn, Sask.—Anton Jost, young Hungarian, of Pangman, was sentenced to three years in penitentiary when a jury found him guilty of attempting to murder Mrs. Kauffman and Martin Kauffman. The jury found that Jost was not guilty of wounding Anne Kauffman with intent to murder or do her harm.

Naval Papers Recovered London, Eng.—Newspaper reports of the loss of naval documents of "very great importance" between Marston-on-the-Thames and in Chatham Royal naval barracks have proved an exaggeration. It was learned at the Admiralty that the papers in question were of no importance and have been recovered.

Appeal Not Withdrawn Toronto, Ont.—Stating that neither he nor Mr. Wilson had sanctioned the withdrawal of the appeal, W. T. Preston stated that his and Wilson's appeal against the verdict of the trial jury at Cobourg, in the libel action brought by Sir Arthur Currie, was being replaced on the list for hearing.

M. W. U. 1728

Heroism At Sea

Harrowing Tale Of Fire Aboard Ship Is Related

Vancouver.—With seven of her crew painfully burned and scalded, the little Star line steamer, "Trojan Star," Capt. G. A. Griffiths, arrived here with a harrowing story of fire on board while the vessel was off the California coast on the night of October 12, when an oil jet burst in the stokehold, trapping eight men of the engine room force in a wall of flame that sprang up in an instant.

Second Engineer Sydney P. Houston and Fireman James, according to the ship's officers, were chiefly responsible for the safety of the engine room crew.

Being that the way to safety on deck was barred, Houston led the men into the bilges under the boiler. The flames roared above them and for three hours and thirty minutes they lay there in oil and water while the plumes growing hotter and the water in which they lay steadily approaching the boiling point. James, by his cheery conduct and singing of songs, aided his comrades while awaiting rescue. Houston, temporarily insane from the heat and rushed back to the engine room again, where he succumbed.

Only an act of providence stopped the flames. A big steam pipe in the stokehold burst, pouring a dense cloud of steam into the compartment, finally smothering the fire and permitting the deck crew to reach the imprisoned engine room crew, who were smothered from head to foot with fuel oil, soaked in water, blistered and partly gassed.

They are all recovering.

Radio Station Opened

Canada's Largest Broadcasting Station Operating At Winnipeg

Winnipeg, Man.—Official opening of the new broadcasting station of the Manitoba Telephone System, the largest in Canada, took place at the Sherbrooke street studio.

Hon. W. R. C. Clubb, Minister of Telephones, presided at which immediately set in operation the big 50,000-watt transmitter situated at the Agricultural College, eight miles distant.

The power of the new station is more than twenty times that of the old plant.

The program included an address by Premier John Bracken and a band concert by the Winnipeg Salvation Army Chorus, conducted by the director of Bandmaster H. G. G. Ritt. The official wave length of the station will be 384.4 metres and 200 kilo cycles.

Wins Mayoralty Contest

W. H. Malkin Is Elected Mayor Of

Vancouver.—With a majority of 1,666 votes, W. H. Malkin, pioneer wholesale merchant, was elected first mayor of the amalgamated city of Greater Vancouver, comprising Vancouver City, Point Grey, and South Vancouver municipality, in the civic elections. Mr. Malkin defeated Mayor Louis D. Taylor, six years chief magistrate of Vancouver.

The vote in the thirty-nine polls was: Malkin, 18,783; Taylor, 17,067. Louis Rubinowitz, another mayoralty candidate was never a factor in the contest. He polled but 267 votes. Mr. Malkin's term of office will be two years.

Pass Radio Exams

Western Candidates Obtained Certificates Of Proficiency In

Ottawa.—The radio branch of the Department of Marine and Fisheries announced that 18 candidates were examined during the month of September. The following Western candidates were successful and obtained certificates of proficiency in radio telegraphy: Commercial, first class—M. E. D. Jacobson, and J. H. Stow, of Vancouver.

The following have been further examined and have had their existing certificates endorsed for additional equipment:—C. Blacklock, Vancouver; A. R. Beck, and W. J. Pickering, Regina, Sask.

Liquor Revenue Helps

Toronto.—The Evening Telegram says that only the sale of \$8,000,000 worth of liquor has saved the Ontario government from facing a deficit on the year's operations, and that a considerable portion of the liquor revenue will go to balance the expected \$2,000,000 shrinkage in the succession duties taxes.

Workman Buried In Concrete

Two Men Victims Of Accident At Cleveland

Cleveland, Ohio.—The bodies of two workmen who were buried alive in a 165 foot hole under a fifty ton fall of fresh cement at the Union Depot site here, were cut from the hardened mixture after a desperate 12-hour struggle.

The two men were Patrick Toole, 29, and Patrick Cleary, 27, both of Cleveland.

Toole and Cleary were working at the bottom of the hole in which concrete was to be poured. A few feet away was another pit into which concrete had been poured a short time before.

Under the pressure of the tons of concrete, the retaining walls of the second gave way. The concrete tore through four feet of earth and poured down upon the two victims.

LOOK FOR BIG GOLD RUSH IN NORTH ONTARIO

Winnipeg, Man.—Valuable gold discoveries made during the past summer and this fall at Crow River by the Northern Aerial Mineral Exploration Company probably will bring a stampede of prospectors rivalling that to Red Lake a few years ago. Capt. H. A. Oakes, operating manager of the company, states. Crow River is near the Patricia mining field in North Ontario.

At least 200 prospectors are awaiting their chances to make Crow River before the freeze-up, and scores are intending to be there in the dead of winter. The more fortunate will go by airplane, but the majority will take the next best means of getting to their destination—by canoe or dog team.

"We have every proof that the Crow Lake strike is a good one," Capt. Oakes stated, "and our groundmen, including engineers and other technical experts will be on the scene, possibly the entire winter."

The company will continue to carry on operations this winter by plane, although this branch of its service will not function in any other territory but Ontario.

The machines have been brought to Winnipeg for housing during the winter, and four more Pickers and Palschids will be flown here by the end of the week. Captain Oakes and Al Chessman, chief pilot, brought two of them here the beginning of the week.

The plane that sank at Chesterfield Inlet on the Hudson Bay recently has been salvaged and will be shipped here in about another month. It will have to remain at the Churchill until freeze-up as the only means of transportation to the railway is by tractor. The crew will come also.

All planes which operate this winter would be equipped with skis. Captain Oakes said, as there would not be facilities for machines with wheels.

TO ENCOURAGE SETTLEMENT

J. N. K. MACALISTER

Assistant Commissioner, Department of Colonization and Development, Canadian Pacific Railway, who says that the newly organized Colonization Finance Corporation of Canada Limited is the most important step ever taken jointly by Canadian private land-owning bodies in the effort to encourage agricultural settlement on a sound basis. Millions of acres are involved and the scheme is being developed in conjunction with the Canada Colonization Association, of which Mr. Macalister is a director.

Take Up Residence In London

Mr. and Mrs. Tunney Reported To Have Leased House In Mayfair

London, Mr. and Mrs. James Joseph Tunney, according to report have taken the lease for a year of a house in the Mayfair quarter of London where after their honeymoon it is said they intend to form a literary salon.

Harry Preston, English sportsman and friend of the retired world heavyweight champion, states that he still expects to see Gene enter the ring again. He said that he had told Tunney that there remained one record for him to break, referring to the occasion three years ago when Jack Dempsey fought four English heavyweights in succession at a boxing tournament.

Memorial Day For Celebrated Explorer

Norwegian Government Will Honor Memory Of Roald Amundsen

Oslo, Norway.—The anniversary of the discovery of the South Pole by Roald Amundsen, in 1911, will be celebrated on December 14, by the Norwegian government as a memorial day for the famous explorer who died in an effort to bring relief to the lost expedition of General Nobile. Besides the extensive celebration in Norway, Norwegians all over the world will be informed of their government's decision to enable them arrange other commemorations.

HIGH COMMISSIONER FROM BRITAIN

This photographic portrait of Sir William Clark, first high commissioner from Great Britain to Canada, who arrived recently at Ottawa, was made this summer in London, by Missa Keene, Fellow of the Royal Photographic Society. Mrs. Keene, who lives in Oakville, has done photographic portraits of many distinguished people in America, Europe and Africa, and has also made photographic studies of national types in many parts of the world.

New Daily For The Pas

Expect Publication Will Start Early In December

Calgary.—It is expected that the Northern Star, the proposed new daily for The Pas, for which a Canadian Press franchise has been granted, will commence publication early in December. A building is now in course of construction there to house the editorial, business and printing departments. G. M. Bell, president of the Calgary Alberta Company, is president of the new company, which has been authorized to undertake the enterprise, and B. L. Cross, Regina, is vice-president. Associated with them will be P. C. Galbraith, at present news editor of the Winnipeg Tribune, as business manager, and Fred Johnson, mining editor of the Winnipeg Tribune, as managing editor.

B.C. Settlement Plan

Has Been Exaggerated

Reports Being Circulated Are Causing Government Some Trouble Victoria.—Settlers are pouring into the Government offices here from people who would avail themselves of the land settlement offer recently announced by Premier Tolmie. However, low and inaccurate reports concerning British Columbia will go to aid the settler have been exaggerated and these are causing trouble.

Some reports stated that the government would give 40 acres of cleared land, a log cabin and \$2,000 in cash, but the Premier denied this in a statement issued.

Premier Attends Luncheon

Speaks To Delegates Of Empire Parliamentary Association On Return To London

London, Eng.—Premier Mackenzie King, of Canada, attended the luncheon tendered by the British Government to the delegates of the Empire Parliamentary Association who have just returned from their tour of Canada, and are about to disembark, some of them to return to distant parts of the Empire.

Premier King said he was sure the delegation while in Canada had learned how Canadians had the greatest pride in British traditions and institutions.

ALBERTA PLANS TO AID SETTLERS FROM BRITAIN

Edmonton.—Closer co-operation between the Provincial and Dominion Governments in regard to future immigration work was decided upon at a conference held between Hon. J. H. Forke, Federal Minister of Immigration and Colonization, and Premier Brownlee and members of his cabinet.

There will probably result from the conference in the way of definite forward moves, an agreement to bring out next year a number of British women for domestic help, the establishment of training schools in the old country for prospective immigrants to Canada, and the erection of 20 or more cottages in the Leithbridge irrigation district for newly arrived settlers.

All the new policies thus tentatively decided upon will be of a tripartite nature, as between the Alberta, Dominion and British governments. The cost of the various projects will be shared by the three parties, which will in this way be closely linked together in the promotion of selected British immigration to this province.

According to Mr. Forke's information, a considerable number of British women immigrants can be secured as domestic help and it is proposed to give this phase of the question some definite trial during the coming year.

The training schools also proposed as a matter of future policy will be established in both England and Scotland. They will be for the purpose of familiarizing likely immigrants to Canada with actual living and farming conditions in this country and will be closely supervised. A great deal can be done in this way, in Mr. Forke's opinion, to give prospective settlers a measure of experience and so to ensure their ultimate success.

The Provincial Government will now consider as part of its future program the building of 20 cottages on Leithbridge irrigated farms in which farmers newly brought out under the tripartite scheme may be settled.

This will be with a view of getting the regulated flow of settlement. Mr. Forke's visit was part of his itinerary on a Western tour in which he is coming up with all the provincial governments.

FINE TRIBUTE TO PAID TO CANADA BY U. S. JUDGE

New York.—"The country in which you were born is rapidly coming to age; you have no reason to be ashamed of it, and it considers you its liaison officers in the great country of your adoption." These were the closing words addressed by the Hon. Justice E. Fabre Surveur to the semi-annual gathering of the Canadian Society in New York recently.

Justice Surveur spoke to a distinguished group which included Sir John Closter Armstrong, British consul general at New York, and Mr. Frederick Hudd, the Canadian trade commissioner here. His address was a survey of Canadian progress toward autonomy and nationhood.

The effect of this change, he said, is to bring Canada closer to Britain than ever. The Canadians would still value their fidelity to the British crown.

Justice Surveur sketched the gradual accession to Canada of broadened jurisdiction in her courts and law and increase in power in dealing with other nations of the world.

"Canada's election to the council of the League of Nations," he said, "is a new step, as it is the place it holds at Geneva."

Will Be Responsible To Canadian Doctor

British Doctors To Aid In Inspection Of Emigrants

London, Eng.—A roster of 350 British doctors is being formed for medical inspection of emigrants to Canada. Canadian doctors will be retained, each doctor being in charge of a zone and British doctors within each zone will be responsible to the Canadian doctor. Miss Franklin, secretary of the Women's Overseas Settlement Society, says her society will assist establishment of domestic training schools for women migrating to Canada. Sir George Magnum, Church of England council for Empire Settlement, says domestic training schools will be a great benefit to the migration movement.

Offered Appointment

Sir Lomer Gouin May Accept Lieutenant-Governorship Of Quebec

Ottawa.—The Citizen publishes the following: "Although he has not officially accepted, it is expected here that Sir Lomer Gouin will respond to the offer of the lieutenant-governorship of Quebec when it becomes vacant next January on the expiration of the term of Governor Perreault. Many months ago the prime minister wrote a letter to the erstwhile minister of justice, expressing the view that he should round off his career by accepting the lieutenant-governorship of the province."

Typhus In The Ukraine

London, Eng.—An Exchange Telegraph dispatch from Riga reported 10,000 cases of typhus in the Ukraine, with many deaths. Schools and moving picture houses were closed. Provisions and medicine were needed urgently, the dispatch said.

Returns To California

Riverdale, Cal.—Jesse Clark, sister of Stanford Clark, 15-year-old accuser of her uncle, Gordon Stewart Northcott, alleged killer of boys on his Riverside chicken ranch, has arrived here from Canada.

House Shortage In Calgary

Calgary, Alta.—Although 300 new houses have been erected in Calgary this year, a serious shortage is reported. The population of the public schools showed an increase of 600 over last year on re-opening.

Air Phones A Success

London, Eng.—The Cross Channel Air Company announces that successful experiments had been made whereby passengers called their city business houses by wireless telephone while flying as high as 12,000 feet.

Radio Popular In China

Peking.—The Peking radio broadcasting station announces that it now has 2,630 paid subscribers, paid in less than one year. Three women announcers are on the staff of the station.

Coal tar, from which dyes are made, is the essence of plant life that flourished millions of years ago.

ST. ALBAN'S CHURCH

Thursday, Oct. 25: Special meeting of the W. A. All members requested to attend at the parish hall at 7.30 p.m.

Friday, J.W.A. at 3.30 p.m. Members please bring sewing. Mission study.

Sunday, Oct. 28: Harvest Festival services as follows: 9 a.m. Holy Communion; 7 p.m. evensong. Anthem: "O How Amiable Are Thy Dwellings." Gifts of fruits, vegetables and flowers handfully received from 2 p.m. till 5 p.m. on Saturday, Oct. 27. The services of helpers to decorate would be appreciated.

A telegram was received by Mrs. Maurice W. Cooke on Tuesday informing her of the death of her father, Mr. Geo. Bewick, at Winnipeg, that morning. His wife predeceased him about three years ago. The funeral is to be held today (Thursday) in Winnipeg. The friends of Mrs. Cooke will join in extending sympathy in her bereavement.

Tom Whittingham, of the circulation department of the Lethbridge Herald, is making a thorough canvass of the Pass towns this week to increase circulation for that popular Southern Alberta daily. Mr. Whittingham has been in the newspaper business for many years, and knows the "game" from the case up. Until recently he was manager of the Kimberley Press, and has had a wide experience in Manitoba and Saskatchewan.

Here and There

(144)

An effort is being made to establish an airport at Banff, Alberta. Government officials have inspected a site near the present golf links and the prospect that a field will be prepared within the next year is bright.

A further supply of airplanes and airplane parts arrived in Montreal recently when the Canadian Pacific freighter "Beaverford" brought two De Havilland Moth planes, one case of wings and two cases of spare parts.

A call for tenders for a large elevator with a capacity of 1,500,000 bushels has been sent out by the Saint John Harbor Commission. The new structure is to be erected on the Colwell Fuel Company's site, in West Saint John, the work of construction to be got under way as soon as possible.

A Cadillac sedan equipped with rubber insulated steel flanged wheels has been specially equipped by the Angus Shops of the Canadian Pacific Railway at Montreal for the use of the engineering department of that company on inspection trips. The machine has an extra braking system operated by the steering wheel and can make as great a speed on the rails as it can on the highway. Over seventy miles an hour was made on a trial run.

CHAPTER IV.—Continued.

In appearance the champion very much resembled an ape. His bullet-head was close cropped. The small piggy eyes were deep set under overhanging, beetling brows. And the nose was first like a negro's, his lips were thick with a repulsive twist that gave his face a sinister look. His massive jaw was purposely left unshaved to rasp the tender skin of his opponent's shoulders in the clinches. His enormous barrel-shaped chest was covered with a thick growth of hair. His shoulders were broad and his disproportionately long arms, heavily muscled, terminated in two thick ham-like hands. He gazed confidently at Donald's corner.

A pastebord box containing the gloves was tossed to the centre of the ring. There was a stir as the announcer pushed his way through the ropes. Andy crossed the ring to examine the champion's hands for breaks and to test thoroughly the new gloves for any trace of sewed in shot or lesion that would cause the eyes to smart. One of Garriau's seconds was making a similar examination in Donald's corner.

A big man in a wide-brimmed hat with a mackinaw coat over his arm, came walking down the steps of the arena. The look of astonishment on his face gradually gave place to one of joy. He ran to the ringside. "Donald!" he shouted joyously, as he sprang through the ropes. With a thrill of pleasure Donald held out his hand to Jack Gillis. The big man's face was beaming. "Just got it," he said. "This looks all over town for you! I came to the fight and—holly mackerel!—here you are one of the fighters!"

Andy noted the glad look in Donald's eyes and he spoke sharply to Donald's seconds, who were for ordering the boisterous visitor out of the ring. The word "psychology" was foreign to Andy, but he knew that Donald's mind had for a moment drifted away from the fight. Donald was surprised to see Douglas greet Gillis warmly as the big man left the ring.

"I have two good friends in the audience, anyway," whispered Donald to himself.

Andy leaned over him, talking in a low voice giving him comfort and

advice. "E'll try right along, Donnie, to get your goat by cursing and using vile language, but don't let him, and don't lose your temper. E' fights with his chin tucked in the hollow of 'is left shoulder and 'is neck muscles rigid. It's mighty 'ard to land on 'is jaw with a right. Now the first round." Andy went on, "Just jab 'im light with your left, don't 'it 'ard, just a good snappy punch. E'll think you 'ave no sting in it, and the next round 'e'll get careless and let you 'it 'im so 'o to get a punch. Of course, if you see a good opening, let fly with all your 'ave, but 'e won't open up until 'e tries you out a bit. Watch the dirty fighting in the clinches. 'E'll foul you if 'e gets a chance. Another thing, this is to be twenty rounds, so take your time. Now is everything clear to you, Donnie?"

"Yes, Andy."

Andy patted Donald's bare shoulder affectionately.

The contestants stood in their corners as they were introduced. The referee beckoned them to the centre of the ring for instructions. As Donald slipped the enveloping bathrobe from his shoulders and stepped forward, a murmur of admiration swelled from the crowd. His lean limbs and broad shoulders showed to advantage in the bright light. The long, flowing muscles rippled under his skin when he moved, like those of a panther. Loud applause came from all over the arena. Garriau, thinking the ovation was for himself, turned and ducked his head with a look that was intended for a blow. A rough voice near the top shouted: "Aw! that wasn't for you, you big stiff!"

The judge and the dentist turned and looked at each other. The eyes of the latter seemed to say, "I told you so." The judge smiled and nodded.

A fat man, who could not have been more than thirty-five years of age, yet with rolls of fat at his waistline, a bullet nose and thick lips, sat savagely on a big cigar. "By gad!" he ejaculated, "that man is perfect." There was a look of admiration and envy in his red-rimmed eyes. Thus do men admire the strong, well-knit body of the athlete, even though their own physical self has degenerated to mere paste.

"Two to one that Garriau wins in this round," shouted a voice. "Douglas covered the bet at once."

"Now, men," instructed the referee briskly, "this is to be for twenty rounds. You are to fight clean breaks. You can hit with your fists, but you cannot hold with your arms and break with the other. When I say 'Break' I want you to break at once and stop back. Do you understand fully? Good! To you, corner."

Donald glanced at his friends, who sat with their eyes upon him. He felt Andy's hand upon him gently stroking his arm, yet he could not suppress the trembling in his limbs. "Everything's right, Donnie," whispered Andy softly.

The gong rang.

Garriau assumed the crouch Andy had predicted, his chin resting in the hollow of his shoulder, his eyes seemingly to retreat into his skull under the overhanging brows. This was the champion's famous "fighting face."

"Pretty boy, ain't yer?" he scoffed. "I'm goin' to knock dose pretty teeth yer throat, you—" he cursed.

Donald snapped a light left to the ugly face and danced out of range. The champion's thick lips parted in a feshish grin. "My mamma's nice boy has a terrible punch!" he derided.

Donald continued his dazzling footwork, keeping the champion in pursuit and contending himself with occasional left-hand jabs that kept his opponent's head rocking. He shot glances at intervals to his corner for instructions from Andy, who nodded his head in approval of his tactics.

The round finished in the challenger's favour by a wide margin on points. The champion did not land a single effective blow during the round.

The action of the first round caused Donald to forget his nervousness. Andy, crouched between his knees and gently massaged his body, all the while speaking words of commendation and counsel.

"Now that you find that you can reach 'im easily with your left, watch for signals. If I see that 'e's openin' up, I'll give you the sign to shoot your left with 'is 'ave. If he swings again with 'is left, try for 'is bread basket. You understand me, Donnie?"

"Easiest thing I've picked yet," chuckled the champion as he came to his corner.

"He may be 'stalling," cautioned his cool-headed manager.

"Eah!" granted the champion. "I can take all he has in dat left and never feel it. I'm goin' to open up on him de last part of de next round."

The gong rang for the second round.

Her Color Went Black. She

Was Frightened To Death

Mrs. W. H. New Brighton, writes: "That deadly indigestion and gastritis, caused by constipation made my color go black. I was frightened to death, and I feel your laxative saved my life. I take them every night now for prevention, and do not fear an attack of constipation poisoning any more."

CARTER'S LITTLE LIVER PILLS
At drug stores—25c and 50c per box.

Donald caught a glimpse of Purcell's face as he crouched in the opposite corner. Such a look of vicious hate shot from his one gleaming eye that Donald shivered.

The rough element began to boo Donald for his running tactics. Some fans feel that they are being cheated out of the price of admission unless they can witness the spectacle of two boxers slugging toe to toe until one goes down. Science counts for nothing with this small minority.

"Whadda ya think this is, a marriage?" they shouted.

"Powder-puff punch!" derided another.

Garriau suddenly turned in, letting loose a terrific right that would have stopped the bout right then if it had landed. From a clinch Donald looked to his corner. Andy went through the pantomime of shooting a straight left. Donald said to himself: "Whadda ya think this is, a marriage?"

"Powder-puff punch!" again shouted the disgruntled fan.

"Did ya hear that?" bawled Garriau, twisting his mouth into an apish grin. "No can't hit hard enough to break an egg. I'm goin' to do 'em teeth for you now." He leered bristly as he tore after Donald, disdaining of the belittled left.

Donald stopped abruptly in his flight and shot a lightning left across to his pursuer's jaw. The champion saw it coming, but too late to block it. He threw his body into reverse, robbing the blow of a great deal of its force; yet enough was left to send him reeling back to the ropes, his head whirling and his knees wobbly. With a roar the spectators came to their feet as one man. The gong saved Garriau.

The crowd gave Donald a deafening ovation as he walked to his corner. He looked for his friends and saw Douglas and Gillis locked in an embrace and dancing madly in the narrow aisle.

(To Be Continued.)

A LAUGHING BABY IS A GREAT JOY

What can give more joy in the home than a laughing, happy baby? The world child makes everyone happy with his tuncful gurgle and bright laughing eyes. It is only the sickly baby who is not a laughing baby. It is the little one's nature to be happy when well.

Mothers, if your baby is cross, if he cries a great deal and no amount of attention seems to make him happy, give him a dose of Baby's Own Tablets and he will soon be well and ready to radiate his happiness through the home again.

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels and sweeten the stomach and thus banish constipation and indigestion, break up colds and simple fevers and correct those troubles which accompany the cutting of teeth and in doing these things—and doing them well—they make baby happy and keep him happy.

The Tablets are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

"And how do you get on with your wife?"

"I've a splendid working arrangement with her. In the forenoon she does what she wants, and in the afternoon I do what she wants."

TOOTH DECAY

You do not allow your child too many sweets lest they spoil his teeth, and, wisely, you did not let him know their taste too early. But where the harm?

As soon as you have read, no doubt, so called tooth decay is a disease that is incited by bacteria. These micro-organisms have the power of setting up fermentative processes in left-over carbohydrate matter in the mouth, producing acids which attack the tooth substance to dissolve it. In this manner, these organisms gain access through the hard enamel covering.

You perhaps did not suspect the presence of bacteria in your mouth, does that you? Yet, a noted authority states that more than a hundred different species could undoubtedly be isolated from a single mouth at one time.

Now, of course it is neither practicable nor possible to cut off the carbohydrate supply, nor to rid the mouth of bacteria for any length of time.

However, nature herself is not wholly defenseless against the situation, for the acid formed is, as a rule, taken up by the saliva and dissipated before it can do injury—excepting where it can lie undisturbed as in deep pits or fissures, or beneath food particles that adhere to the teeth, where proper mouth toilet is not observed.

But you must do your part by avoiding excessive use of carbohydrate foods such as sugars, starches and allied substances, for the use of a too large quantity of these is a condition that can but invite disaster—especially when proper mouth toilet is not the daily rule.

First Parachute Was Used By Frenchman

Successful Drop Made From Considerable Height in 1802

Unquestionably the parachute, nearly in its present shape, is as old as aeronautics. There is supposed to be a picture of one in Venice dating from 1617, and there is a narrative of a French ambassador to Siam in the 17th century, to the effect that a mountebank at the royal court climbed to the top of a tall bamboo and jumped off with two umbrellas to support him. Very likely this is true. Shortly after the Montgolfier ascents, the French aeronaut Blanchard seems to have made the first parachute drop from a balloon, by means of a balloon, but instead of trusting himself to the apparatus he attached his self.

Possibly because the parachute had been designed for the weight of a man and was thus much too large for the dog, instead of dropping when released, it went up considerably higher than the balloon, then at about 650 feet. After a time it came back down near the balloon and the dog got so much to bark a greeting to Blanchard. At least, that's the yarn that comes to us. Finally Blanchard was killed by the gradual descent of his balloon and a little later the dog landed unhurt.

This successful experiment doubtless greatly stimulated the inventors for practically every form of parachute was suggested, some of which were actually constructed, and among them some fearful and wonderful arrangements. One of these promptly came up when released and resulted in the death of its inventor. After this it appears the designers returned to the original umbrella form.

The first successful drop from a balloon at any considerable height appears to be that of the Frenchman, Garnerin, who staged a performance at Paris in 1802. Garnerin cut himself loose at 1,200 feet and luckily managed to land safe and sound.

The Middle Course

During his visit to a village school a diocesan inspector of religious knowledge put this question to a class of little girls:

"If all the good people were white and all the bad people black, what color would you be?"

Some answered "White" and others "Black." But little Mary replied: "Please, sir, I would be streaky!"

No need to suffer with corns, or to run the risk of paring them. Remove them surely and painlessly with Holloway's Corn Remover.

Mistress: "I see that another soldier has called for you, Mary. I thought you had only one sweetheart!"

Cook: "Oh, no, mum; two. You see, one's regular and the other's a reserve."

Minard's Liniment for sprains.

"Did you hear about the defacement of Skinner's tombstone?"

"No, what was it?"

"Someone added the word 'friends' to the epitaph!"

"What was the epitaph?"

"He did his best."

Trying To Eliminate Hazards Of Submarines

U.S. Navy Will Make Test Of Rescue Apparatus

Stirred by undersea craft disasters that have taken the lives of scores of American officers and men, the navy is making strenuous efforts to eliminate the hazards of submarines by devising and perfecting rescue apparatus.

Many experiments are being made and plans carried out for exhaustive tests to learn what happens when a submarine is stricken below surface. No man has survived a submarine accident wherein the craft was totally disabled and flooded while under water, and none has been able to tell just what occurs under those conditions.

In addition to laboratory experiments, the bulk of the submarine S-1, which took 40 men to their deaths after she was rammed by the Coast Guard destroyer, Paulding, off Provincetown, Mass., December 17, 1927, will be used in rigorous tests off Cape Charles, Va., in October. These tests are to be conducted by Lieut. C. B. Monsen, submarine expert and diver.

Attempts will be made to learn conditions that exist during the wrecking of undersea craft and devise methods of counteracting and preventing them. Naval divers will be placed beside the bulk which will be sunk and flooded. They will then escape through hatches and coffer to the surface by using the navy's new breathing device, "the lung," and other rescue apparatus developed during the last few months.

The singing Mennon was a statue in Egypt which gave out musical notes when the sun rose in the morning and as it set at night. After the statue was tipped over it no longer sang.

Excited Person (complaining to postmaster): "And if I don't get better service, I shall give my postal money to someone else."

Headache? Relieve with Minard's Liniment.

"Have you anything to say, prisoner, before sentence is passed upon you?"

"No, your honor, except that it takes very little to please me."

Little Helps For This Week

"Let us therefore come boldly unto the throne of grace, that we may obtain mercy, and find grace to help in time of need."—Hebrews iv. 16.

Of what an easy, quick access. My beseeching Lord, art Thou! how suddenly.

May our requests Thine ear invade! To show that state dislikes not calumnies, I'll but lift mine eyes my suit is made: Thou canst no more not hear than Thou canst not see.

Prayer is a key which, being turned by the hand of faith, unlocks all God's treasures.—Hannah More.

Believes Asthma At Little Expense. Thousands of dollars have been vainly spent upon remedies for asthma and emphysema. My beseeching Lord, art Thou! how suddenly. May our requests Thine ear invade! To show that state dislikes not calumnies, I'll but lift mine eyes my suit is made: Thou canst no more not hear than Thou canst not see.

Unusually Rapid

"See that large building on our right?" said the booster to the visitor he was showing round.

"Did you notice it was on our left when we came down town?"

"Yes."

"Well, that gives you some idea how rapidly our city changes."

The Dangerous Age

What is the most dangerous age of a person in respect to accidents? According to the Workers' Compensation Commission, at Sydney, N.S.W., a person of 20 years is in the greatest peril. From that age the accident rate decreases and the safest age is set down at 75 years.

EVEREADY Layerbilt

There's been a revolution in the science of battery building—Eveready has found a way to give you more battery for your money than you ever bought before!

The new Layerbilt principle can be understood by anyone. It simply gives you more current-making elements by packing flat cells like crackers in a box, instead of using many round cells with waste space between.

You actually get the equivalent of a much bigger battery and, of course, it takes much longer to use it up. That's why you should buy Eveready Layerbilt and save money. Now selling at new low prices. Ask your dealer.

FURNACETTE

This new powerful heating device which has met with such an enthusiastic reception all over Canada is making new friends every day. While it has the appearance of a handsomely designed photograph cabinet, it is actually a miniature furnace. The "Furnacette" circulates warm air. It draws cool air in from the floor, heats it, humidifies it and purifies it—then discharges it through the top grating. It requires no basement, does as much work as two or three heaters—provides clean, healthful, properly moistened warm air—and where children are concerned is absolutely safe.

Made in Three Sizes

We have cheaper circulating heaters from \$35 up.

Health and Beauty Are Easily Maintained By Simple Hygienic Rules

Increased Happiness Results From Observing Following Suggestions States Red Cross Society.

A healthy woman is always good to look at, even although she may have no particular claim to beauty. A clear skin, bright eyes, vital hair, and a well-set-up figure cannot fail to attract, and this can be obtained by guarding your health.

Doctors advise the daily drinking of at least six tumblers of water, one first thing in the morning, and one last thing at night. The water helps to cleanse out the system, leaving it thoroughly drained of all impurities. The best foods to eat are green vegetables, fruit of all kinds, including oranges, lemons and apples, eggs, milk, butter, fish and wholemeal bread. In winter the daily diet should include fat in some form or another. Diet experts agree that meat is not a necessity. Fish is a good and sufficient substitute.

With the first chill winds of autumn many women insist on heaving on extra clothes, but this is not the best way to avoid that shivery feeling. The clothing both for summer and winter should be sufficiently porous to enable free action of the skin to take place. Fifty years ago it was customary to wear six or seven undergarments, three or four of which were composed of flannel. Today our clothing is much lighter and scarier, and everyone agrees that we are the healthier for it. The best plan is to wear light underclothing, and don heavier outer clothing when the weather is cold.

So that the skin can play its part in the right way, it is necessary to wash frequently. If the pores are allowed to get clogged up with dirt or perspiration little pimples will result. To avoid this, wash thoroughly first with warm water, and then rinse liberally with cold. It is not too often to bath every day, but hot baths should be taken just before going to bed. For health literature write to the Red Cross Society, 407 Civic Block, Edmonton, Alta.

New Service Manager at Garage

Walter E. Dibble, who has been in the automobile business in Calgary for the past ten years, has taken over the service management of Coleman Garage Ltd. He has wide experience in automobile work and is a graduate of McGill University in electrical engineering.

Mr. Dibble is prepared to give expert service in all branches of automobile work.

Local News

Miss Secot left this week for Holy Cross hospital, Calgary, to commence training.

Minerva Chapter, Eastern Star, is holding a halloween party this evening in the lodge rooms, to which all members, Masons and families are invited.

The following men from the McGillivray mine have gone to Mercoal this week to the Saunders Ridge mine: Eric Nergquist, Matt McGrath and Mr. McQueen.

The choir of St. Alban's church sang at the service at St. Luke's, Blairmore, on Sunday evening, which added to the brightness of the occasion. Friends of the choir kindly loaned automobiles to convey them.

Mrs. J. Lonsbury returned on Friday from Granum, where she had been for the previous week owing to the serious illness of her daughter, Mrs. A. Easton, who is now considerably improved.

Major Herbert Hatfield, of Hartdown, Margate, London, England, of the King's Dragoon Guards, Beaumont Barracks, Aldershot, arrived on Saturday last and will for an indefinite time be a guest of his uncle, Mr. Hatfield, of the Hatfield Ranch—Puncher Creek Echo.

The date of the sale of work and home cooking at the Salvation Army hall is Dec. 22.

The mine rescue car is parked here on the siding and the following team from the McGillivray mine is in training under Ed. Royle, superintendent of the car: A. S. McIntock, R. Tiffin, E. Biehr, G. Aiken, W. Edgar.

At the Saturday night whist drive of the Oddfellows and the Rebekahs the ladies' prizes were won by Mrs. Walter Nelson first; Mrs. A. Destol second; for the gents, H. Snowdon first, K. Jenkins second. There were 24 tables in play.

Mr. Steele, district editor of the Lethbridge Herald, and Tom Whittingham, formerly of the Kimberley Press, and now engaged with the Herald, were visitors here last Thursday on a business survey of the Pass towns.
